The embodiments of the invention in which an exclusive property or privilege is claimed are defined as follows:

1. A pulp product comprising:

singulated and jet dried fibers, said fibers being treated with a treatment substance selected from the group consisting of surfactants and mineral particulates during jet drying and not being cross-linked, said product having a knot count equal to or less than 5%, an accepts count equal to or greater than 80%, and a fines count equal to or less than 15%.

- 2. The product of Claim 1, wherein the knot count is equal to or less than 2%.
- 3. The product of Claim 1, wherein the accepts count is equal to or greater than 85%.
- 4. The product of Claim 1, wherein the fines count equal to or less than 14%.
- 5. The product of Claim 1, further treated with a hydrophobic material during jet drying.

6. A pulp product comprising:

singulated and jet dried fibers, said fibers being treated with a treatment substance selected from the group consisting of surfactants and mineral particulates during jet drying and not being cross-linked, said product having a knot count equal to or less than 2%, an accepts count equal to or greater than 77%, and a fines count equal to or less than 21%.

- 7. The product of Claim 6, wherein the knot count is equal to or less than 1.6%.
 - 8. The product of Claim 6, wherein the treatment substance is clay.

- 9. The product of Claim 6, wherein the treatment substance is fly ash.
- 10. The product of Claim 6, further treated with a hydrophobic material during jet drying.
 - 11. The product of Claim 1 or Claim 6 admixed with concrete products.
- 12. The product of Claim 1 or Claim 6 incorporated into an absorbent article.
 - 13. The product of Claim 1 or Claim 6 incorporated into a plastic product.
 - 14. The product of Claim 1 or Claim 6 incorporated into a paper product.
 - 15. The product of Claim 1 or Claim 6 incorporated into a filter product.
